PROFESSIONAL SUMMARY

Aspiring Software Developer with a strong foundation in Python, Java, and web technologies. Experienced in building RAG-based systems and deploying scalable applications on AWS cloud infrastructure. Passionate about leveraging Generative AI and LLMs to solve complex real-world problems. Committed to writing clean, efficient code and contributing to high-impact software development projects.

SKILLS

- **Programming: Python, Java, C, JavaScript, SQL**
- **GenAI: LangChain, Qdrant, Gemini API, Prompt Engineering**
- **Web Development: HTML, CSS, PHP**
- **Database: MySQL**
- **Cloud & Tools: AWS EC2, Security Groups, Git, GitHub, VS Code**

Tecblic **06/2023 – 07/2023**

Python Intern

- Developed foundational Python programming skills through hands-on participation in diverse software development tasks.
- Enhanced logical problem-solving capabilities by implementing clean, readable, and efficient code solutions.
- Gained practical exposure to professional software development lifecycles and collaborative team workflows.

PROJECTS

RAG-Based Document Q&A System (in progress) | Python, LangChain, Gemini API, Qdrant In Progress

- Engineered a document ingestion pipeline using LangChain and recursive text chunking to process complex datasets.
- Implemented semantic retrieval by generating embeddings and storing them in a Qdrant vector database for high-accuracy LLM responses.

Flaunt – Online E-commerce Buying and Rental Platform | Php, MySQL, JavaScript, HTML, CSS

- Architected a full-stack web application featuring product catalog, cart management, and order processing systems.
- Integrated backend and frontend components to facilitate sustainable fashion through a dual-model buying and rental platform.

AWS-Hosted Personal Portfolio Website | EC2, HTML, CSS, Javascript

- Designed and deployed a responsive portfolio website to showcase professional projects and technical certifications.
- Configured AWS EC2 cloud infrastructure to ensure high availability and public accessibility of the web application.

ACHIEVEMENTS & CERTIFICATIONS

AWS Cloud Practitioner Essentials (AWS Skill Builder)

Introduction to Large Language Models (Google)

Software Engineering Essentials (Great Learning)

Introduction to Artificial Intelligence (IBM)

EDUCATION

Bachelor of Engineering (B.E.) in Computer Science & Engineering **2024 – 2027**

New L.J. (GTU)

Diploma in Computer Engineering **2021 – 2024**

L.J. Polytechnic
