PROFESSIONAL SUMMARY

Aspiring Software Developer with a foundation in Python, Java, and web technologies. Currently building a RAG-based document Q&A system with LangChain and Qdrant, and built an AI medical chatbot with Flask. Deployed a web application on AWS EC2. Passionate about applying Generative AI and LLMs to real-world problems, with a focus on clean, efficient code. Seeking backend and AI/ML developer roles.

SKILLS

- **Programming:** Python, Java, C, JavaScript, SQL
- **GenAI:** LangChain, Qdrant, Gemini API, Prompt Engineering
- **Web Development:** HTML, CSS, PHP
- **Database:** MySQL
- **Cloud & Tools:** AWS EC2, Security Groups, Git, GitHub, VS Code, Jupyter notebook

EXPERIENCE

Tecblic **06/2023 – 07/2023**

Python Intern

- Developed foundational Python programming skills through hands-on participation in diverse software development tasks.
- Enhanced logical problem-solving capabilities by implementing clean, readable, and efficient code solutions.
- Gained practical exposure to professional software development lifecycles and collaborative team workflows.

PROJECTS

RAG-Based Document Q&A System | Python, LangChain, Gemini API, Qdrant In Progress

- Engineered a document ingestion pipeline using LangChain and recursive text chunking to process complex datasets.
- Implemented semantic retrieval by generating embeddings and storing them in a Qdrant vector database for high-accuracy LLM responses.
-

Medi-bot – AI Medical Chatbot | Python, Flask, Euri API (GPT-4.1 mini), HTML, CSS

- Built a Flask web application with a chat interface that answers health-related questions using the GPT-4.1 mini model through the Euri API.
- Developed a REST endpoint (POST /chat) that validates input, sends a prompt to the LLM, and returns JSON responses with error handling.

Flaunt – Online E-commerce Buying and Rental Platform | Php, MySQL, JavaScript, HTML, CSS

- Designed the MySQL database and contributed to PHP backend development for a team-built e-commerce and clothing rental platform
- Integrated the database with the backend to support product catalog, cart, order management, and rentals with date and time selection.

AWS-Hosted Personal Portfolio Website | EC2, HTML, CSS, Javascript

- Designed and deployed a responsive portfolio website to showcase professional projects and technical certifications.
- Deployed the site on an AWS EC2 instance and configured security groups for public access.

ACHIEVEMENTS & CERTIFICATIONS

AWS Cloud Practitioner Essentials (AWS Skill Builder)

Introduction to Large Language Models (Google)

Software Engineering Essentials (Great Learning)

Introduction to Artificial Intelligence (IBM)

EDUCATION

Bachelor of Engineering (B.E.) in Computer Science & Engineering **2024 – 2027**

New L.J. (GTU) | CGPA: 7.74

Diploma in Computer Engineering **2021 – 2024**

L.J. Polytechnic
